

Michigan Pest Control Association Executive Secretary Resigns

Chris Arnold will resign as Executive Secretary of the Michigan Pest Control Association (MPCA) at the end of 2007. She has served in the position for over a decade.

Chris has been pursuing her Teaching degree in Early Education with a major in Science at Wayne State University. She will start student teaching in January of 2008, and graduate in May.

She would like to teach an Elementary class or any Junior High level Science Class in the Frasier School District.

“It’s a bittersweet time. I’m excited for the future, but I’m also sentimental about leaving the Association,” Chris stated.
