

MPCA News Release

Jim Rutherford of Action Termite & Pest Control and Jeff Spencer of Griffin Pest Control recently attended NPMA's Legislative Days in Washington DC to represent MPCA. Besides networking with other PMP's from around the country, the Michigan PMP's were able to witness the opening of the new NPMA location in Fairfax Virginia. They heard great speakers such as Newt Gingrich and Tony Snow, and attended meetings with several of Michigan's Senators and Congressman.

Jim Rutherford, a first time attendee, was thrilled with his experience. "It was an amazing experience. Being in DC and taking part in the process of lobbying our representatives was something I recommend other members in MPCA to experience at least once."
